

Arborist

Reports to: Arboriculture Services Manager

The part I play at Bromford Flagship LiveWest to enable people to thrive is:

to ensure all scheduled works are carried out on each site as per scope of service as part of the onsite working team, delivering a high quality and legally compliant Arboriculture Service as directed by the Arboriculture Services Manager and Lead Arborist. Our aim is to carry out justified tree works, reducing risk and maintaining the good health and physiology of Flagship's urban forest. Furthermore we aim to deliver excellent customer satisfaction and value for money.

My skills and experience include:

Previous experience of practical arboriculture and related machinery.

The ability to work in a professional manner and communicate effectively.

I have the following industry related qualifications and appropriate experience - NPTC/Lantra up to to aerial chainsaw, IPAF1b, FA + F.

Ideally I'd have aerial tree pruning, aerial tree rigging, NRSWA and PA1/6, but these are not an essential requirement.

I have good customer service, problem solving and decision-making skills, ideally including how to respond to and escalate any safeguarding and/or emergency situations that occur on-site.

I have a full driving licence.

The skills I will develop include:

Ongoing personal development through my place within the Arboriculture Services Team.

Access to training through ongoing support from the Flagship academy.

To learn, lead and apply continuous improvement through the Flagship Way.
