

Painter (Capital Works)

Reports to: Capital Works Manager

The part I play at Flagship Group to help solve the housing crisis is:

to carry out effective and efficient painting and decorating tasks **on Flagship properties, supporting other trades and colleagues** across the business as and when required, to provide an **outstanding service** for our tenants and the homes they live in. I work 40 hours per week, on site from 8am until 5pm Monday to Thursday and 2.30pm on Friday, and I am flexible to working additional paid time to finish repairs outside of my core hours when needed.

I work efficiently and safely and strive to minimise waste when performing **a range of tasks in relation to painting and decorating**. Using various tools and equipment, including my own Flagship Services vehicle, I carry out works such as, but not restricted to all **preparation works; filling, sanding, painting, priming, glossing and overall decoration** within Capital works and voids. I aim to complete my work to the required standard first time round, to ensure we're **spending time and money wisely**.

My skills and experience include:

I have a full trade apprenticeship or NVQ Level 2 within a relevant trade or a proven track record to reflect the appropriate trade experience.

I have good practical skills, repairing or replacing parts as required, determining what equipment is required and assisting with preparing cost estimates.

I have good customer service, problem solving and decision-making skills, ideally including how to respond to and escalate any safeguarding and/or emergency situations that occur on-site.

I am competent in Microsoft applications such as Outlook and Teams.

I have a full driving licence.

The skills I will develop include:

Understanding and responding to any safeguarding and emergency situations that occur on-site.

Understanding and familiarity with a range of operational digital systems which will include a work scheduling system.

Flagship Group Values:
