

Electrician (Repairs & Voids)

Reports to: Repairs & Voids Manager

The part I play at Flagship Group to help solve the housing crisis in the East of England is:

to carry out **electrical and electrical related repairs and maintenance on Flagship properties, supporting other trades and colleagues** across the business as and when required, to provide an outstanding repairs service for our tenants and the homes they live in. I work 40 hours per week, on site from 8am until 5pm Monday to Thursday and 2.30pm on Friday, and I am flexible to working additional paid time to finish repairs outside of my core hours when needed.

I work efficiently and safely and strive to minimise waste when performing **a range of electrical and associated tasks**. Using various tools and equipment, including my own Flagship Services vehicle, I carry out works such as, but not restricted to, **inspecting, testing, repairing, installing and modifying electrical components and systems**. I may be **carrying out repairs for our tenants or testing and improving electrical systems in our void properties**. **I clean damp and mould, carry out void clearances and flood repairs, and identify and arrange removal of asbestos** when needed. I work with schedules of rates to assess the work content of jobs and complete estimates, ensuring all work is completed to the required standard first time round, to ensure we're spending time and money wisely.

My skills and experience include:

I am 18th Edition qualified, possess strong technical skills and knowledge and have a proven track record to reflect my experience as an Electrician. I ideally hold a 2391 Testing and Inspection certificate and have JIB graded approved Electrician status.

I have good practical skills, repairing or replacing parts as required, determining what equipment is required and assisting with preparing cost estimates. I work diligently, have good attention to detail and can follow detailed instructions.

I have good customer service skills and problem solving and decision-making skills, ideally including how to respond to and escalate any safeguarding and/or emergency situations that occur on-site.

I am competent in Microsoft applications such as Outlook and Teams.

I have a full driving licence and I am willing to take part in the out-of-hours on call rota which may include Public Holidays.

The skills I will develop include:

2391 Testing and Inspection certificate if required.

Understanding and responding to any safeguarding and emergency situations that occur on-site.

Understanding and familiarity with a range of operational digital systems which will include a work scheduling system.

The opportunity to gain and be paid for additional trade skills outside of my core trade through Flagship's 'Trade Plus'. scheme.

Flagship Group Values:
